## **Laser Spine Institute To Provide Surgical Aid To Military Personnel** *Leader In Endoscopic Spine Surgery Inks Contract With TRICARE*

TAMPA, FLA. – Bill Horne, CEO of Laser Spine Institute (<http://www.laserspineinstitute.com>), the leader in endoscopic spine surgery, has announced that the medical organization will provide surgical treatment to military personnel under a contract with TRICARE insurance, effective Thursday, Sept. 1. The contract will help more than 2.8 million members of the military, located in the southern region, gain access to minimally invasive spine procedures. Services are provided to all active duty members, retired military members and those who qualify for TRICARE Standard, Extra or Prime coverage.

In addition, Laser Spine Institute is proud to support The Spine Foundation, an organization that funds surgical and non-surgical spinal treatments for financially disadvantaged individuals. The Foundation focuses on improving the lives of men and women who have sustained spinal injuries as a result of serving in the United States military.

**QUOTES:**

“We are pleased to be able to support and help those currently serving and those that have previously served in our military,” said Horne. “We believe that it is crucial to give back to the greater community and it is vital that all current members and retired military members have the proper health care attention that they deserve.”
