**Laser Spine Institute Named
One Of The 100 Best Places To Work In Healthcare**
*Laser Spine Institute Chosen By Becker's Hospital Review
For Superior Work Environment*

PHILADELPHIA – Bill Horne, CEO of Laser Spine Institute, (www.laserspinesinstitute.com) the leader in minimally invasive spine surgery, has announced that Laser Spine Institute has been chosen as one of the “100 Best Places to Work in Healthcare” by Becker’s Hospital Review/Becker’s ASC Review. The 2010 list was developed through research and nominations to find organizations demonstrating superiority in providing a work environment that promotes quality patient care, teamwork and individual professional development.

QUOTES:

“It is an honor to be named one of the best places to work by Becker’s Hospital Review,” said Horne. “We strive to provide our employees a great work environment where they can develop their talents while helping our patients.”

“Throughout LSI, experienced employees in all tiers of healthcare delivery share the same sentiment: they have never worked any place like this,” said Valerie Maxam-Moore, RN, MN, and director of clinical compliance at Laser Spine Institute. “The executive team makes it clear that being ‘the best place to work’ is as important as being ‘the best place to have surgery.’”
